Questions

- | | |
|--|-----|
| 1. Clarity of the exposition (excellent = 5) | 5.0 |
| 2. Speed of presentation (too fast = 5) | 3.2 |
| 3. Global assessment of the course (excellent = 5) | 5.0 |

Comments and suggestions for the teaching assistant

- Nothing. He has to keep doing his job. One of the best TA I ever had.
- Hands down the best TA I've ever had, not only at Cemfi. Eugenio really cares. And besides just reviewing solutions with us, he takes care to give every session added value beyond solving the exercise and the course material. Great job! I would like to be a TA like this some day.
- He is a really good TA! I really like the part he taught us how to quickly solve some questions during exam, which is really useful!
- Great! Thanks a lot!
- He has been the best TA we have had since we started the master. His explanations are very good, very focused on understanding intuition and correcting mistakes for the exam.
- Great TA! I appreciated in particular how Eugenio pushed toward economics intuition/reasoning.
- Eugenio is the best TA I have had at CEMFI. He is always well-prepared for recitations and willing to help. Furthermore, he strikes a great balance between rigor, accessibility, and intuition.

- Euge has been the best TA I've had thus far. He has the ability to explain both theory and exercises in a very clear and concise way. He is attentive and available for extra assistance, whether it's understanding exercises or the course material in general. Just a minor observation, sometimes philosophical questions arise during TA sessions, and it would be nice to manage those discussions in a way that doesn't distract from the coverage of the most important exercises. Additionally, I really appreciate the final answers to the problem sets and the 2-minute breaks, which help me survive the entire session while staying focused. Congratulations, Euge! Keep up the excellent work. You are truly a hero to students like me who may not be the brightest in the class but who truly want to work hard and learn. Thank you for your patience. I have no doubt you will become a great professor. You're not just good at what you do, but you also really care about helping others learn and succeed.
- Eugenio is the best TA I've had. Focused and precise. Amazing.
- The best TA I had so far. Eugenio thoroughly prepared for all the classes, giving us advice that proved to be very useful for subsequent assignments and hopefully for the exam as well. He is always willing to take the time necessary to clarify doubts and remains available for consultations after class.
- Amazing TA. Eugenio's knowledge on the topic is notorious and his explanations are always convincing and helpful. Also, I really appreciate his willingness to help in any moment both during the regular recitations or outside them.
- Eugenio was really helpful. His sessions/office hours were very pedagogical. Any doubt you could have, he did everything in his hand to help you. Also, he kept a very good communication with the Professor, which also helped us directly. Defenitely the best TA! Thank you so much.
- Eugenio might be the best TA I have seen so far! His guidance was not limited to problem sets only: he provided support on exams, problem solving in general, thinking about macroeconomic intuitions, lecturing in front of the class etc. I think he is creating a comfortable and productive environment in the class: makes it easier to follow & participate for everyone.
- So far the best TA we've had. He prepared the sessions and was really helpful.
